The aim of this timetable is to communicate fortnightly expectations of the Maths Learning space to all teachers, parents and students.

***This timetable may be subjected to change due to extra curricula and whole school activities (e.g. Cross Country)**

Students are responsible for:

Having their name marked off within the first 5 mins of each session starting

Bringing their maths book to each session.

Home work:

To prepare Year 8 students for senior high school maths it is expected students participate in regular homework. At least 1 hour per week of home work is recommended so students can develop and consolidate their knowledge of mathematical concepts.
