

Dear Parent/Guardian,

Harrison School is committed to providing a technology rich environment for our students as we believe the use of Information and Communication Technology (ICT) is fundamental in supporting teaching and learning in all areas of the school curriculum.

The use of web based learning resources and cloud based storage has risen steadily over the last decade and are increasingly being used by teachers around the world to improve student learning outcomes.

Teachers are often required to make decisions designed to assist students in their learning. Sometimes it is beneficial for the student to utilise services provided by third party web based providers. Types of services provided include online content creation, collaborative tools, online educational games and various administrative programs for tracking student assessment data or timetables.

As our school wishes to register with a web based service provider that requires some personal information about a student in your care, I am obliged under the Commonwealth Privacy Act (1988) to advise you of the reasons for collecting the information, what will be done with it and who else may have access to it.

The site below has been identified as being a key component for the purpose of:  
Creating a digital timetable for allocation of student classes and school resources.
